City College Peterborough believes that every young person should have access to an education that will give them the best skills to prepare them for their future.

Every young person has a right to receive a high quality education that is going to give them a solid foundation to develop their understanding and learn new skills.
Welcome to City College Peterborough

Welcome to City College Peterborough and the choices available to you for your next steps. City College Peterborough offers a wide range of programmes to help you achieve the right skills and qualifications needed for your desired career. You will study with our knowledgeable and experienced staff in our industry standard facilities. We are always updating our courses to ensure that we deliver relevant training and the courses meet the needs of our local and national economy. We pride ourselves on our dedicated staff delivering high quality training and support to all our learners.

As well as studying towards a qualification, you will have the chance to gain some valuable work experience within the local area. Joining City College Peterborough will offer you the opportunity to socialise with new people, build new friendships and learn at the same time. You will be treated with respect in a friendly and supportive environment, which will help you to achieve your goals. All we expect from you is enthusiasm and commitment to your chosen programme.

Welcome to City College Peterborough

Amazing facilities and equipment

We have industry standard facilities including a motor vehicle workshop, dance and drama studios, a hairdressing salon, catering kitchens, health and wellbeing centre and outdoor gym. These are all kitted out with the necessary resources to enable your learning.

Social environment

Meet new people and make life-long friends. Take part in college trips and extra curricular activities.

Central location

We have two campuses based in central Peterborough. One in the city centre and the second in Dogsthorpe. Both campuses have free car parking and bus stops outside the buildings.

A better future

Our courses are designed to help you achieve nationally recognised qualifications and experience in both theory and practice. Whether your destination is the world of work or higher/further education, our courses will ensure you are fully prepared for your future.

A supportive, fun learning environment

Learners are treated like adults and your decision making is promoted.

Open Events

23 January 2020, 4pm at John Mansfield Campus. Look out for our other open events that run throughout the year. Dates and times are published on the college website and our facebook page. Meet our tutors and see our facilities. You don't have to wait until these dates, to take a look at what City College Peterborough has to offer!

Contact our Recruitment Team to arrange a visit.

Staying in education after 16

Young people in England must stay in education until they are 18. This does not mean young people have to stay at school! You can enrol onto any of the following:

- full-time education (e.g. at a school or college)
- an apprenticeship or traineeship
- part-time education or training combined with one of the following:
  - employment or self-employment for a minimum 20 hours per week
  - volunteering for a minimum 20 hours per week.

Here at City College Peterborough we can offer any of the above.

Please contact our Recruitment Team on:

01733 761361 or sprecruitment@citycollegepeterborough.ac.uk
Support for Schools

Year 11

The College works in partnership with schools to provide an alternative provision for Year 11 learners, with referrals being accepted via schools or other professional bodies. We offer a wide range of vocational areas including: hairdressing, motor vehicle, childcare, catering and many more!

The programme is designed to support young people with their work skills, development and education in a supportive and stimulating environment.

Our careers programme

Your Path – Your Choice is at the heart of a well planned and progressive careers programme to develop aspirational goals for the future. Participation in work experience, workplace visits and engagement with local industry experts help learners to develop key employability skills including numeracy, literacy and communication.

Learners attend weekly citizenship lessons and track their progress in their personal your path — your choice journal.

Student Support

Wellbeing Support

Here at City College Peterborough we have a dedicated Wellbeing Team. The staff are here to ensure that you are given the support you need in order to be able to overcome any barriers that are holding you back from achieving and progressing onto your next steps into education, employment or training.

The team are also dedicated to ensuring your safety and work in close partnership with teachers, parents/carers and local and national agencies such as the Targeted Youth Support Service within the local authority. Together they can assist you with anything from housing and benefits advice to counselling services if needed.

The Wellbeing Team can help with:
- Emotional Support (counselling and anger management)
- Mediation with friends
- Referral to external support services

Support for Learners with Learning Difficulties or Disabilities

The college has a dedicated SENCO and a team of SEN Progress Coaches who all work to ensure your needs are being met within the class environment as well as offering advice and guidance around your support needs.

Our Wellbeing Officers offer help with both your academic choices, funding and money issues and any additional needs you may have. Your Wellbeing Officer will also liaise with relevant professionals to assist in your transition to independence.

We offer training in various aspects of daily life, such as using public transport; supporting a healthy lifestyle; managing money and improving interpersonal skills.

We offer a wide range of facilities to aid your support, including a newly purpose-built unit, designed to offer the practical applications of your learning. This includes a sensory room, particularly beneficial if you need a space to process your thoughts and moods.

The team are highly trained to assist with any support needs that may arise and ensure that your learning is individual to you.

Tutor Support

Each tutor is there to support and enhance your development whilst on a programme. They see your advancement as a joint responsibility. Your vocational tutor will be there, along with the Wellbeing Team to guide you through to ensure you are on track to achieve your goals. They will be your first point of contact, to help develop your study skills and build your confidence.

Equality & Diversity

City College Peterborough actively work towards offering equal access and opportunities to all.

Safeguarding

City College Peterborough are committed to promoting the welfare, safety and protection of all children, vulnerable adults, learners and staff.

Support Services

- Referral to external support services
- Mediation with friends
- Emotional Support (counselling and anger management)

Funding for Care Leavers

If you are a care leaver and you are aged between 16-24 on 31 August 2020 have an EHCP or the criteria below, you are entitled to support towards any course or funded units. You will be entitled to free meals at College if you are aged between 16-18 on 31 August 2020.

- Aged between 16-24 on 31 August 2020 have an EHCP
- The Care Leaver is receiving Universal Credit (was Income Support) in your own name
- The Care Leaver is receiving Personal Independence Payments (was Disability Living Allowance) AND Employment Support Allowance in your own name

*Quality Assurance

**Please note, this support is not available for Apprentices

Since 1969
What is a study programme?

- Achievement of a Recognised Qualification
- Functional Skills English and Maths or GCSE English and Maths (grade D/3)
- Relevant work experience
- Citizenship

Study programmes are designed to help you study and achieve a vocational qualification, up to Level 2, and a recognised qualification in English and Maths. The College offers various practical work-based vocational courses or relevant qualifications to study whilst you decide what career path you would like to follow.

The College will organise meaningful work experience related to your chosen vocational area to help you to develop your employability skills and create potential employment options. Your programme of study will include Functional Skills English and Maths or GCSE English and Maths.

Functional Skills English

A Functional Skills English course with varied lesson content including the use of Microsoft Word, film, audio, blogs, and streams. Independent study skills will be taught and nurtured to ensure you can complete tasks without the need to consistently rely on support. You will be supported to learn for yourself so you become a more confident and independent learner.

GCSE English

GCSE English learners develop the ability to communicate clearly, accurately, and effectively in both speech and writing. They learn how to employ a wide range of vocabulary, grammar, spelling, and punctuation, and develop a personal style and an awareness of the audience being addressed. Learners are also encouraged to read widely, both for their own enjoyment and to further their awareness of the ways in which English can be used.

GCSE English also develops more general analysis and communication skills such as synthesis, inference, and the ability to order facts and present opinions effectively. Delivery of the qualification is done through various methods including class-based, revision-based, and digitally-based sessions. You must have already achieved a GCSE English Language at grade D/3 to be offered this option as part of your study programme.

Functional Skills Maths

A Functional Skills Maths course delivered to prepare you for everyday maths, getting a job, and earning a living. The skills taught will include how to estimate a bill, live on the average wage and measure room sizes and furniture. Other topics include decimals, fractions, percentages, ratios, area and perimeter. The maths skills are all taught in a friendly and relaxed atmosphere. You will learn through fun and engaging activities which make the teaching memorable. You will deal with money, weight, time, temperature, tables, and charts and analyse statistical data. Knowledge of basic maths gives you confidence which pervades into other areas of your life. It is the passport to your next steps.

English for Speakers of Other Languages (ESOL)

This course is designed to increase your confidence and ability in your functional English skills to prepare you for further studies or the work place. You will develop your speaking and listening skills together with your study skills through focused reading and writing activities.

The topics include:
- Speaking and listening skills
- Reading and writing
- Local community and current affairs
- Personal and social development.

Course requirements
- Ability to work to at least Entry Level 1 in English.
- This will be tested at interview.

GCSE Maths

GCSE Maths encourages the development of mathematical knowledge as a key life skill, and as a basis for more advanced study.

The syllabus aims to build learners’ confidence by helping them develop a feel for numbers, patterns, and relationships, and places a strong emphasis on solving problems and presenting and interpreting results. Learners also gain an understanding of how to communicate and reason using mathematical concepts. Wherever possible, the learning is linked to the student’s vocational subject and real life scenarios are used to demonstrate the significance of each topic. The delivery includes practical activities, e-learning, and a variety of resources to practice the skills. A commitment to regular homework is required in order to pass this qualification in one year. You must also have already achieved a GCSE Mathematics at grade D/3 to be offered this option as part of your study programme.

Keep in mind...
Take a look at our occupational requirements/industry listed standards by each course. This information will provide you with requirements needed to be able to work in the relevant industry.
Levels 1 & 2 Business Administration
Qualification: Level 1 Certificate in Business Administration
A portfolio based course covering all aspects of working in an office/business administration environment. A range of topics including:

“I really enjoyed the Step Up course because I had all the support I needed as the teacher was very helpful. When I started this course I didn’t know what I wanted to become but now I can think of what I want and starting my career. City College Peterborough is better than any college in Peterborough as you get support when you have a problem, they are there for you all the time.”

Adriana Herakova

“College is better than school, I like being treated more like an adult. Step Up has helped my confidence.”

Jaymie Currie
City College Peterborough believe that all young people should be helped to develop skills and experience, and to achieve the qualifications they need to succeed in their careers. The overwhelming majority of young people with SEN are capable of sustainable paid employment with the right preparation and support.

Our Supported Internship programme is designed to provide a pathway to employment that has a clear focus on preparing learners with SEN for work. This includes identifying the skills that employers value and helping young people to develop them. Alongside their time at the employer, young people complete a personalised study programme which includes the chance to study for relevant substantial qualifications, if appropriate, and English and maths.

**What is a Supported Internship?**

Supported Internships are a structured study programme based primarily at an employer. They enable young people aged 16-24 with a statement of SEN, or an Education, Health and Care Plan to work towards sustainable paid employment by equipping them with the skills they need for work, through learning in the workplace. Supported Internships are unpaid, but wherever possible, they support the young person to move into paid employment at the end of the programme.

**Is this the right course for me?**

A Supported Internship can offer many young people a pathway to sustainable employment. If you can answer yes to the questions below and have a can do attitude, then a Supported Internship could be for you!

- Do you want to learn new skills?
- Do you want help and support to prepare for the world of work?
- Do you need help to develop your self confidence and self belief?
- Are you willing to participate in a work placement?
- Are you ready to take the next step in your personal and professional development?

**Entry requirement**

There are no entry or completion requirements for Supported Internships, and each learner will have access to a personalised programme that meets their needs and provides progression opportunities.

Apprenticeships

Earn while you learn

Apprenticeships are a great way to obtain a recognised work-related qualification. (You will find a range of apprenticeships available for you to choose from along with help to find that very important job.) Typically, apprentices spend one day per week at College and the rest of the week at the workplace. The College offers a range of Intermediate, Advanced and Higher Apprenticeships for learners aged 16 and over:

To find out more contact a member of the Apprenticeships team on (01733) 293899, email Apprenticeships@citycollegepeterborough.ac.uk or call into the College on Brook Street.

Apprenticeships we offer

- Business Administration L2/L3/L4
- Customer Services L2/L3
- Leadership & Management L3/L5
- Adult Care L2/L3
- IT Professional L2/L3/L4
- Social Media & Digital Marketing L3/L4
- Supporting Teaching & Learning in Schools L2/L3
- Childcare/Early Years L2/L3/L5
- Human Resources L2/L3

“After studying Marketing in more depth for one of my A-level Business Studies modules, I found I had a real interest in this area – and, combined with my interest in graphic design, the apprenticeship with NetSupport seemed like the perfect fit for me.

I would definitely recommend apprenticeships to anyone who wants gain experience in the workplace whilst studying. I’ve gained a huge range of new skills, including some I never thought I would get to cover, as well as a lot more confidence in both myself and my work.”

Chloe Bray
Marketing – NetSupport
